

Mission

Kids' Chance of America was established for the purpose of creating, assisting, and supporting Kids' Chance organizations throughout the United States and other similar programs that provide educational opportunities and scholarships for the children of workers seriously injured or killed on the job.

What We Do

- Promoting the establishment of Kids' Chance organizations in all states that as of yet do not have existing programs by providing organizational and monetary start-up assistance.
- Soliciting financial support and in-kind donations at the national level and distributing these funds to member organizations for scholarship use and program development.
- Increasing public awareness of Kids' Chance and its member organizations by providing information to foundations and corporate-giving programs and conducting research and gathering information to further this purpose.
- Guiding member organizations on best practices in how to operate a non-profit organization.
- Providing training, educational programs and other support to member Kids' Chance organizations.

As a non-profit organization, your help is critical to our success. Monetary donations from people like you make our work possible.

By making a generous gift to support this worthwhile organization, you can help a diverse group of students across the United States gain access to higher education, economic opportunity and a chance at a better future.

If you want to make a donation, please visit www.kidschance.org.

Our History

Robert Clyatt, a workers' compensation attorney from Valdosta, Georgia, founded the first Kids' Chance organization in 1988. Through his work, he had witnessed the life-shattering impact that a serious workplace injury had on the children of seriously or fatally injured workers, who were now faced with the difficulty of having to fund their own education. With the assistance of the Workers' Compensation Section of the Georgia Bar, Bob Clyatt incorporated Kids' Chance of Georgia and began raising money to fund educational scholarships for the children of injured Georgia workers, so that they could pursue their educational goals.

In 2007, the national organization, Kids' Chance of America, was formed to create, assist and support organizations throughout the United States with this simple purpose: raise money to provide scholarships for the children of workers seriously injured or killed on the job. Since inception, the Kids' Chance organizations have collectively awarded over 3,000 scholarships and over \$8,900,000 in scholarship funds. The Kids' Chance state network has grown to include 26 states, with an additional 6 states in development. Our goal is to have a Kids' Chance presence in all 50 states.
