

Virtual Claims Kit

Introducing The Newest Productivity Tool From WorkersCompensation.com

- **The endless battle to keep required posters and forms current**
- **The hassle and expense of printing and shipping documents**
- **Using paper and other precious natural resources**
- **Wasting Your Money!**

The **Virtual Claims Kit** is a web based service that offers all of the state required forms, posters and documents for the employers claims reporting compliance needs, as well as your custom letters and forms.

For the Insurance Company:

This revolutionary system offers you a simple, one stop solution for your Claims Kit requirements. Our service carries your company name, and makes our continually updated content available to your insured's 24/7—whenever they need it, directly through your client portal.

For the Self Insured Employer:

Make all of these state mandated documents available to all of your physical locations, directly through your intranet, and under your company name.

Think of it: One simple link can replace a time intensive and expensive process for your company, and provide improved service and value to your clients; internal or external!

New! Our new VCK API provides unparalleled flexibility for integrating VCK content into your website. Additionally, new and highly customizable solutions, including bundled claims kits and more will soon be available in our VCK 2.0!
